

3 Ways to Get ServSafe Certified Without Closing Your Restaurant

Food Safety Made Easy · foodsafetymadeeasy.com

OPTION 1

Self-study, on your own time

Study the ServSafe Manager material in spare minutes instead of a scheduled block. The SafePrep Manager app (\$4.99) covers the full curriculum; the SafePrep Refresher (\$2.99) delivers it in 60-second bursts whenever you've got a minute to spare.

No calendar block required.

OPTION 2

Skip the class — book just the exam

Indiana doesn't require a class before testing, only that you pass the exam. If you or your manager already know the material, book a proctor to come to you and administer the exam directly — no testing center, no fixed class schedule.

OPTION 3

Full Circle — class and exam in one visit

Want an instructor to teach the material first? The Full Circle package combines instruction and the proctored exam into a single 3-hour, in-person session at your location. One trip, done.
